The principal purpose of North Georgia College is to provide an appropriate liberal arts and scientific educational program for all its students, while developing in its young men, through a sound military program, the competencies needed for successful military careers. It further recognizes that the vocational and professional needs of its students are best served on the senior-college level through specialized programs of study built upon or around a well-developed general education program.

In order to make its facilities available as much of the year as possible, North Georgia College operates on the four-quarter system, the summer quarter differing from the others only in the nature of the work offered, taking into account the needs of teachers in service and others who need specialized work. Summer school information is available in April. Freshmen may enter any quarter. Almost all required freshman and sophomore subjects are offered every quarter.

# THE BLUE RIDGE RIFLES

The Drill Platoon is sponsored by the Military Department and consists of cadets selected from the Freshman, Sophomore, and Junior Classes. They are selected because of their ability to excel at drill. The platoon demonstrates exceptional ability combining drill skills into coordinated action. The platoon performs several times each year for the public.

The North Georgia College Students' Canteen, located on the ground level of the Academic Building, is operated for the convenience of students and faculty. Here are sold soft drinks, sandwiches, other refreshments, and school supplies. In this area also is located a central TV lounge, uniform-sales area, and the bookstore and classroom supply sales area.

# Pass in Review!

Intercollegiate competition is offered in baseball, tennis, drill and rifle marksmanship. The on-campus sports program is most complete and offers an opportunity for all students to participate in baseball, basketball, swimming, track, volleyball, football, tennis, archery, softball, table tennis and hockey.

Three times a day the familiar sound of the bugle tells us it's "chow time" and the coeds scramble to form a line of gossip while the cadets form companies. With the radio broadcasting the latest hits, the atmosphere becomes that of laughter and relaxation. Our daily routine is temporarily forgotten . . . or is it? One potato, two potato, three potato, NaNO<sub>3</sub>.

Master these and Bachelor of Arts we'll gain hopefully.*

The English Department provides the blocks to build a sound foundation for all other fields. P. Kluk

W. G. Oliver

*The S.N.E.A. Club*

A well rounded education includes courses in the elementary education department itself, such as art, music, children's literature, observation, and apprentice teaching. All these basic experiences are needed in preparation for *Up the Down Staircase*.

*WHO said that?*

## DEPARTMENT OF SOCIAL SCIENCE

A handful of notes.

The History Department offers a person the necessary insight to a world of the past, present, and future through its courses in various phases of history, political science, and philosophy. For the student more gifted in history there is an honorary fraternity known as Phi Alpha Theta. This years members are C. Black, S. Collins, B. Duncan, K. Dyer, I. Diakonski, D. Joslyn, M.J. Moore, and R. Vandertuin, including faculty members Miss S. Drew, Mr. J. Kidd, Dr. W. Leger, Mr. R. Rensi, Dr. W. Roberts, and Mr. F. Smith.

## DEPARTMENT OF PSYCHOLOGY

Dr. G. T. Anderson

Dr. W. D. Bellamy

The mind is a fascinating complex that conjures up problems with its mere existence. It is the science of psychology's aim to try to understand the mind's many different facets and to bring order from chaos.

*Sure I'd like to help you out. Which way did you come in?*

## DEPARTMENT OF BUSINESS ADMINISTRATION

The Business Administration Department prepares many NGC students upon graduation for the "cold, cruel world". After completing this program of management, accounting, economics, or secretarial work, a student should be ready for a successful career as a business leader with increasing responsibilities.

*It takes a certain type.*

## DEPARTMENT OF MATHEMATICS

*At this point, I'd like to add . . .*

Since the Mathematics Department is divided among so many capable professors, it multiplies in such a way that its product becomes a loss of students through graduation . . . and surveys show that the sky is the limit.

*Who's afraid of the Pied Piper?*

Sugar and spice and all things nice . . . ♀  
 Snakes and snails and puppy dog tails . . . ♂  
 And *you* thought it was genes all the  
 time!

One can find the Biology Department on the top floor of the Science Building, and it's guaranteed that a visit would be very intriguing. The subject is related to everyday life, making it a field that lends itself to association.

## DEPARTMENT OF PHYSICS

Mr. D. E. Kinkaid

Mr. E. G. Pigg

Mr. C. M. Yager

*A slippery rule.*

The Physics Department is full of perspective; with all of its wave lengths it seems to have become radioactive. But, don't be alarmed! This activity is not due to Gamma rays, but rather to those who are on the beam.

*The Radio Club*

*The Physics Club*

*Hung up.*

*No, I'm not tied up.*

## DEPARTMENT OF CHEMISTRY

*Is this the Brave New World?*

*The Chemistry Club*

*Bubble, bubble, boil and . . . TROUBLE!*

As one climbs up the stairs to the second floor of the science building, he opens the door to a new world of exactness, experimentation, and challenge. The three professors combine their talents to search for promise in each determined student and encourage membership to the Chemistry Club in order to broaden interest in this field.

*Chemistry + Pop Belcher → Happiness.*

Mr. R. Belcher

Dr. T. Davis

*Musical chairs.*

*It's time for a tune-up.*

*The NGC Chorus.*

## DEPARTMENT OF MUSIC

*Dead beat.*

NGC's Music Man, Mr. Lyman Hammond, has indeed been an attribute to our college. Through his direction the chorus has progressed in such a way that this year it presented "The Messiah" and participated jointly with Mrs. Sherry Fuller and the NGC Players to present *How to Succeed in Business Without Really Trying*, a musical comedy that drew an audience of over one thousand people.

*Don't get hemmed in!*

*The Home Economics Club*

## DEPARTMENT OF HOME ECONOMICS

Mrs. E. Ditano

Miss E. McGahee

Cooking and sewing, creativity, child care, teas, and even Cadetiquette (which gives girls a chance to put what they've learned to use) are found in our versatile Homes Economics Department. Coffee, tea, or milk? Or, how 'bout . . . ?

Miss B. Bell

Mr. A. S. Bickley

Miss B. Doub

Mr. U. G. Matherly

## DEPARTMENT OF PHYSICAL EDUCATION

*Fun with Coffee Breaks.*

*Well, how else do you expect to get a good figure?*

Swimming, tennis, track, calisthenics; field hockey, archery, boxing, calisthenics; wrestling, football, volley ball, tumbling, and calisthenics—oh, my aching pectoralis major.

I swear I'll go out and raise "Caine".

*"Yo-Yo, get in your box!"*

## EDITOR'S EPILOGUE

The '67 Cyclops took a tremendous amount of thought, coordination with other staffs, footwork, and concentrated hours resulting in mental and physical fatigue. This brought about tears, laughter, anger, and a new type of yearbook for North Georgia College. My staff and I hope you have enjoyed it.

Yours,  
Roger W. Goss, Editor
